LEARNING

Circular Letter No. 19.

October 26, 1934.

SUBJECT: Miscellaneous.

TO: Camp Educational Advisers, Florida CCC Camps.

FROM: P. G. Reynolds, State Educational Adviser, Florida CCC.

1. F. E. R. A. TEACHERS: There still seems to be some misunderstanding as to the exact method of obtaining your FERA teacher. I am enclosing a copy of a letter from the Florida Emergency Relief Administration to the Regional Administrators explaining the matter to them. If you have not been able to get your project through take this letter to your local Administrator and County Superintendent. After the project has been signed by you and the local officials it must go to the Regional Administrator and then to this office for approval. This office will see that it is sent on to the State Office in Jacksonville.

2. CAMP PHOTOGRAPHS: This office is arranging a program of publicity and would like any pictures you have available at the present time. Anything about camp life or of the camp can be used. Get in as many as possible so that we will have a supply to draw from at all times. It might be advisable to label the photographs so that this office will know what they are about. Please get this material in as soon as possible. If you have two camps, send in pictures for both.

3. NEW CAMP PAPER: The Seedling Pine, of Company 1420, Ocala. This is a fine six page paper and is well prepared. In Florida we now have a total of 17 camp papers.

1. The first part of the paper

is devoted to the

study of the

properties of the

operator

which is defined by the formula

where

and
